

PRODUCT DATA SHEET

Laser Distance Meter

AMTAST AND40 is a tool that uses laser technology to measure distance, area, volume accurately, quickly and comfortably.

This measuring tool can measure distance or height indirectly based on the Pythagorean Theorem when direct measurement is not feasible.

Specifications

Professional Distance Meter employs laser technology to measure distance, area and volume accurately, quickly and conveniently. In addition, this meter can measure distances or height indirectly base on Pythagorean Theorem when direct measurement is not feasible.

Details	AND40	AND60	AND80	AND100
Measurement Range:	0.05 – 40 m	0.05 – 60 m	0.05 – 80 m	0.05 – 100 m
Meter Case:	ABS Plastic			
Measuring Accuracy:	± 2 mm			
Laser wavelength & power:	620-690 nm, <1 mw			
Units of Measurement:	Meter/Foot/Inch			
Functions:	Distance, Area, Volume, Pythagorean Calculation, Plus and Minus, Max/Min			
Historical data records:	20 groups			
Meter size:	110 x 40 x 24 mm			
Meter weight:	72 g
